SUMMARY

I'm a results-driven full-stack web developer with a passion for crafting robust, user-friendly applications. With a strong foundation in both front-end (HTML, CSS, JavaScript, React) and back-end (Node.js) technologies. My experience includes building custom web applications while prioritizing responsive design and optimal performance.

EXPERIENCE

Business Website

QuickStart

Business website created with frontend technologies to help advertise your company.

GitHub Link: <https://ad1lk.github.io/online-store/>

Technologies Used:
